

**The Association for Mathematics Education  
of South Africa**

**13<sup>th</sup> Annual National Congress**

**2 to 6 July 2007**

**Mpumalanga**

**FINAL ANNOUNCEMENT AND REGISTRATION**

*Uplands College*

*On the outskirts of White River close to Nelspruit*

You are invited to the Thirteenth Annual National Congress of the Association for Mathematics Education of South Africa (AMESA). The theme of the congress is:

## ***The Beauty, Utility and Applicability of Mathematics***

**VENUE:** Uplands College, White River, Mpumalanga

**DATE:** 2 July to 6 July 2007

**THE PROGRAMME** will include:

1. **Pre-congress computer workshop** on Sunday, 1 July  
This hands-on workshop is aimed at novice to intermediary computer users, focussing on the skills to use collaboration tools, Equation Editor and spreadsheets in the teaching of mathematics.  
The workshop will run from 10:00 to 16:00. Lunch can be purchased at the venue. Booking is essential – see the registration form, page 9.
2. **Plenary addresses** by invited speakers
3. **Panel discussions**
  - Living in the world of numbers – being mathematically literate
  - Large-scale assessments in Mathematics Education
4. **Parallel sessions** presented by participants  
These sessions are offered in the following strands: Foundation Phase, Intermediate Phase, Senior Phase, FET Phase, Tertiary and Adult Basic Education  
  
The following presentation formats will be used:
  - Long papers (40 minutes plus 20 minutes discussion)
  - Short papers (20 minutes plus 10 minutes discussion)
  - “How I teach” papers (20 minutes plus 10 minutes discussion)
  - Workshops (1 or 2 hours)
5. **Activity centre:** Participants will participate in practical activities that provides opportunities for learners to gain knowledge that will enhance concept formation.
6. **Maths Market:** Publishers, entrepreneurs and NGO's will exhibit or present their products in thirty minute sessions to small groups. For more details contact:  
WHO Makothanyane: Tel: 017 819 3302/3 Cell: 082 682 7031

## **MPUMALANGA PROVINCE**

Mpumalanga, the place of the rising sun is one of South Africa's most panoramic provinces. It is steeped in tribal legends and decorated with astonishingly beautiful vistas of mountains, panoramic passes, valleys, rivers, waterfalls and forests. This province is also known for its Big Game and teems with wildlife and birds. The Kruger National Park is world renowned, and close to the conference venue for those who wish for tranquillity and serenity in the African bush.

## **UPLANDS COLLEGE**

Uplands College is an Anglican Co-educational Independent High School located on a picturesque, 110 ha estate near White River in Mpumalanga Province. Here you will find state of the art computer laboratories with Internet access, comfortable classrooms and residential accommodation on campus.

## PLENARY SPEAKERS

**Michael de Villiers** has taught mathematics and mathematics education at the Universities of Stellenbosch, Durban-Westville and KwaZulu-Natal. He spent sabbaticals in the USA at Cornell University and Kennesaw State University. His main research interests are Geometry and Geometry Education, especially the development of understanding and appreciation of proof using dynamic geometry technology. Other interests include applications and modelling, and the history and philosophy of mathematics. He is vice-chair of the SA Mathematics Olympiad Committee, which sets and organises the SA Mathematics Olympiad. Michael is the editor of the KZN AMESA Mathematics Journal aimed at mathematics teachers and mathematics educators in KwaZulu-Natal.

**Marcia Moremedi** completed her Ph D in Computational & Applied Mathematics at the University of the Witwatersrand in 2001. She currently is a senior lecturer in the Department of Mathematical Sciences at the University of South Africa. She is actively involved in research on fluid mechanics, differential equations and partial differential equations and has collaborated work in peer reviewed journals. She has been involved in various educational activities, including tutoring engineering, architecture, quantity surveying and science students. She also taught for four years at Promat Colleges. Marcia lectured Applied Mathematics modules for two years to teachers registered with Unisa in a project to improve teachers' qualifications.

**Cathy Seeley** is a mathematics educator and change facilitator in K-12 education in the USA. Her diverse experience includes teaching mathematics at the middle and high school levels, working as a district mathematics coordinator, and as state mathematics supervisor in Texas. She served on the writing team for the 1989 NCTM (National Council of Teachers of Mathematics) *Curriculum and Evaluation Standards for School Mathematics*. From 1999 to 2001 she taught mathematics in Burkina Faso as a Peace Corps volunteer – see <http://csinburkinafaso.com/>. In 2006, she completed a two-year term as President of the NCTM. Cathy currently is a Senior Fellow with the Charles A. Dana Center at the University of Texas.

**Godfrey Sethole** studied at the Universities of North West, Cape Town, Stellenbosch and the Witwatersrand, where he completed his Ph D in 2005. Godfrey taught mathematics at high school level, and worked in curriculum development at RUMEUS (Research Unit for Mathematics Education at the University of Stellenbosch) and in MALATI (Mathematics Learning and Teaching Initiative) before being appointed at the then Technikon North West. He currently is Associate Professor and Head of the Department of Mathematics, Science and Technology at the Tshwane University of Technology. Godfrey has written 20 papers, both locally and internationally, and 9 mathematics textbooks.

## PLENARY PANEL SPEAKERS include

### ***Panel 1: Living in the world of numbers – being mathematically literate***

**Aarnout Brombacher** is the former head of the mathematics department at Westerford High School and a Past President of AMESA. In 1996 he won a scholarship for a Masters degree in Mathematics Education at the University of Georgia in the USA. In his thesis he looked at the experience of teachers involved in curriculum change. As the chair of the AMESA Curriculum Committee he takes a special interest in curriculum development in the country. He served on the National Department of Education's Mathematics working group team that developed the Mathematics Subject Statement for the new Revised National Curriculum Statement. Over the last two years he devoted most of his energies to projects related to the implementation of Mathematical Literacy.

**Hamsa Venkatakrishnan** is currently working as a postdoctoral research fellow in the Marang Wits Centre at the University of the Witwatersrand, focusing on the implementation of Mathematical Literacy in schools. Prior to this, Hamsa was based in London for many years, working initially, as a high school mathematics teacher in London comprehensive schools, before moving into teacher education at the Institute of Education and research in mathematics education at King's College. She obtained her PhD at Kings College London and is the winner of the 2005 British Educational Research Association dissertation award for making the most significant contribution to research in education.

**Alwyn Olivier** is senior lecturer in Mathematics Education and director of the Research Unit for Mathematics Education at the University of Stellenbosch (RUMEUS), where he is involved with mathematics teacher education of pre-service and in-service teachers, with a special interest in mathematical literacy. He also worked in adult basic education and in the late nineties he was director of the influential MALATI (Mathematics Learning and Teaching) project. He is an NRF (National Research Foundation) rated scientist, currently working on an NRF project on the use of technology tools in mathematics teacher professional development. Alwyn is an honorary member of AMESA.

### ***Panel 2: Large-scale assessments in Mathematics Education***

**Caroline Long** is a researcher at the Centre for Evaluation and Assessment at the University of Pretoria. She previously worked at Wits University, where she taught courses in assessment to B. Sc. Honours students, and general mathematics courses to prospective teachers at undergraduate level. She is currently researching the topic *ratio and proportional reasoning* from different perspectives. On the theoretical side she examines how epistemological and historical factors inform the development of related subtopics within this field and from the empirical side she investigates how Grade 7s, 8s and 9s respond to selected items taken from the TIMSS 2003 study. Caroline has presented regularly at AMESA conferences and published in Pythagoras.

**Anil Kanjee** is the executive director of the National Education Quality Initiative at the HSRC (Human Sciences Research Council). He obtained his PhD in research and evaluation methods from the University of Massachusetts. His career included lecturing in psychology at the Universities of the Western Cape, Massachusetts, Witwatersrand and Pretoria. He has extensive experience in the technical and practical aspects of assessment. Specific research interests include the development of monitoring and evaluation systems in the education sector, and the use of information from national and international assessments to improve the teaching and learning process.

**Michael Kahn** is the executive director of the Knowledge Systems unit at the HSRC. He has worked internationally as academic, independent consultant, and adviser to government and higher education. His fields of interest span science and technology and information policy, science education, and the promotion of public communication in these fields. He holds postgraduate degrees in physics, and policy and planning. From 1999 to 2002 he occupied the Chair of Science, Mathematics and Technology Education at the University of Cape Town, and in parallel was adviser to the Minister of Education, in which role he led the development of national strategies for both science and mathematics education.

## HOW TO GET THERE

### By train

A train leaves from Johannesburg Station daily at 18:10 and arrives in Nelspruit at 04:00. More information is available at the following website:

<http://www.spoornet.co.za/ShosholozaMeyl/index.jsp?link=timetable&routeid=23>

### By plane

There are direct flights from Cape Town, Durban and Johannesburg to the Kruger Mpumalanga International Airport, Nelspruit. See these websites:

<http://www.kmiairport.co.za>

<http://www.sairlink.co.za/>

<http://www.flynationwide.co.za>

### By bus

Greyhound, Translux and Intercapex offer daily trips from Johannesburg to Nelspruit.

More information regarding these services is available on the following websites:

<http://www.greyhound.co.za>

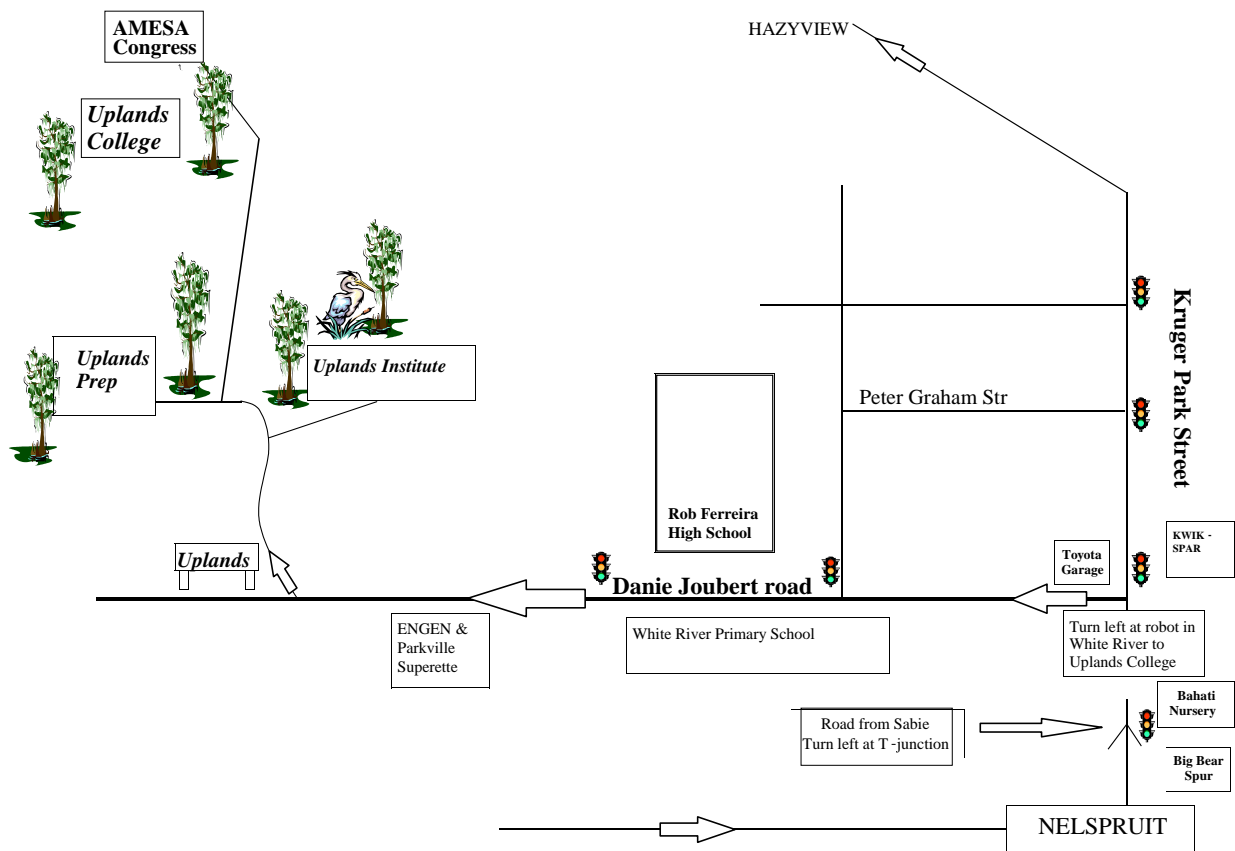

<http://www.intercape.co.za>

<http://www.translux.co.za>

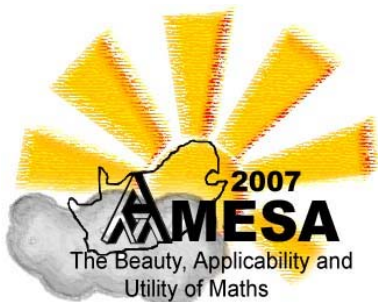

### By car

Follow the route from your departure point to Nelspruit. Nelspruit is about 360 km from Johannesburg. From Nelspruit to White River and Uplands College you can follow the directions using this map:

### MAP TO UPLANDS COLLEGE

Witbank —Nelspruit N4 . At the first main crossroad (robot intersection) in Nelspruit, there is a sign to White River – turn left onto the R40, keep going straight for about 20 km.
