25 July 2012

AMESA Northern Cape annual mini-conference

Dear School Governing Body, Principal, Head of Department, Mathematics Educators

AMESA Northern Cape wishes to invite you to our annual mini-conference.

The theme for this year is *Rekindle the love for Mathematics*, which fully encapsulates the aim of this conference.

We have catered for presentations across all phases that will afford ample opportunity for educators to gain the mandatory skills and confidence which are vital for the successful implementation of CAPS.

The buzzword within Mathematical circles is **problem-solving** and is subsequently central to every presentation.

We are also pleased to inform you that the newly elected president of AMESA, Alwyn Olivier, will be our plenary speaker.

This is an opportunity to network with movers and shakers in the field of Mathematics Education, don't lose out.

Date: 25 August 2012

Venue: Kimberley Teachers' Centre

Time: 08:30 – 15:30

Registration: AMESA members: free

Non-AMESA members: R120 (individual membership)

Schools or institutions: R320 (institutional membership)

Yours in Mathematics Education

LP van Heerden

Chairman
