The department invites applications for the academic post of Professor/Associate Professor either in the field of **mathematics education or science education.** We seek an individual with excellent academic credentials in teaching and research in one of these fields.

Responsibilities:

- Involvement in teaching (contact, blended and online) at undergraduate and postgraduate levels
- Play a leading role in online teaching innovation
- Supervise student research at Master's and Doctoral level
- Lead national and international research projects
- Procure funding for research
- Involvement in core activities of the department such as academic administration, research, short-course development, marketing, and community projects.

Minimum requirements

Minimum Requirements for Professor and Associate Professor

- Applicable PhD/DEd/DPhil degree
- Teaching experience at the tertiary level
- Experience in blended/online teaching

Minimum Requirements for Associate Professor

- Sustained accredited research output (in local and international journals and books/ book chapters)
- Experience in research project management
- Experience in postgraduate supervision

Minimum Requirements for Professor

- Prolific accredited research output (in local and international journals and books/ book chapters)
- Experience in doctoral supervision
- Extensive experience in research project management and procurement of research funding
- NRF rating or output commensurable with an NRF rating
- A good record in procuring of research funding

Competencies and Behavioural Attributes:

- Excellent written and verbal English communications skills
- Good planning and organizational skills
- Good interpersonal skills, as well as the ability to collaborate with colleagues
- An outstanding classroom practitioner with the ability to use a range of technology-enhanced tools
- Well-developed scholarship of teaching and learning
- Adept at teaching and development of materials for online education

Recommendations:

- Enjoying international recognition as a researcher
- Collaboration with leading scholars in STEM education
